The above mentioned game is approved for use in New Jersey as an amusement game, as defined in the Amusement Game Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This approval is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the specifications submitted and the terms of this certification. Any modification of the manufacturer's specifications or the specified method of play immediately voids this certification.

It is unlawful to operate any amusement game in the State of New Jersey without a valid certification.

This certification is conditioned upon the following:

Volcano is a one player skill stop game. The player hits the skill stop button which stops lights from moving, each in a different area with an assigned ticket value. The player then hits the skill stop button again which "erupts" a ball from the volcano into the playfield. The player attempts to time the eruption so the ball drops from the volcano into the area desired by the player. Points are awarded based on which ticket value is light in the area the ball lands.

- 1.) The maximum price to play shall not exceed values set forth in N.J.A.C. 13:3-3.4.
- 2.) Payout must occur immediately in the form of tokens or tickets.
- 3.) Game shall be clean and free of debris.
- 4.) Game shall be installed and maintained according to manufacturer specifications.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
